Prices above assume camera ready art. This means you have your art in a "vector" format. A vector file will have the following extensions: .eps - Encapsulated Postscript, .ai - Adobe Illustrator, .cdr - CorelDraw

If you only have a Word document, a .jpg or .jpeg, a .gif file, or a .pdf, these will not work for the screen print process. In this case, you may incur a charge of \$50.00 per hour for converting your bitmap file into a vector file suitable for printing. Send your art for evaluation and a custom quote.

Shipping charges vary according to your location. 35¢ per shirt is a rough estimate. Actual UPS charges will be added to your invoice.
